She explained that KONG had not picked up as she had hoped when placed under pressure, and she had formed the view when walking to the event prior to today's racing that the ground towards the outside of the track was superior, and for this reason she elected to alter course to a position in the better going. Rider reported that the gelding travelled well in the early and middle stages of the event; however, when asked for an effort at the entrance to the straight did not respond to his riding and was disappointing to the finish.
