

THOROUGHBRED RACING SA LIMITED

ADDITIONAL STEWARDS' REPORT

MORPHETTVILLE PARKS – SATURDAY, 21 JANUARY 2012

PRINCE OF CAPERS:

RACE 5 : ACG SECURITY HANDICAP - 1550 metres

Mr. A. McEvoy, the Trainer of PRINCE OF CAPERS, has reported that subsequent to this race the gelding exhibited symptoms consistent with having jarred up. The Trainer added that track conditions would likely dictate PRINCE OF CAPERS programme.

THORNBURST:

RACE 8 : SAJC AUTUMN CARNIVAL HANDICAP - 1400 metres

Mr. A. Gluyas, joint Trainer of THORNBURST, which performed poorly in this event, has advised that a post race veterinary examination has detected the gelding to have muscle soreness across the rump consistent with azoturia (tying up). He confirmed THORNBURST had been treated and its condition would continue to be monitored prior to the stable assessing its immediate programme.

G.M. LOCH
