

**THOROUGHBRED RACING SA LIMITED**

**ADDITIONAL STEWARDS' REPORT - SWIPELINE**

---

**MORPHETTVILLE- SATURDAY, 9 JUNE 2012**

**RACE 2 : IRISH DAY 1ST SEPTEMBER HANDICAP - 1200 metres**

Mr. T. McEvoy, the Trainer of SWIPELINE, has advised Stewards that subsequent to its performance, the colt had undergone an extensive veterinary examination including an endoscopic examination and pathology tests. These tests revealed SWIPELINE to exhibit elevated muscle cell enzymes, which, in the Veterinary Surgeon's opinion, could be expected to affect its performance.

SWIPELINE is expected to respond to treatment and the Trainer's present intention is for the colt to continue its preparation.

Mr. McEvoy was reminded a Veterinary Certificate of Fitness was required prior to SWIPELINE being presented for a future trial or race.
