MORPHETTVILLE MEETING – SATURDAY, 2 FEBRUARY 2013

Race 3 : Boag’s Draught Handicap - 1200 metres

Stewards today inquired into the circumstances in which a urine sample taken from the racehorse COSTA IN THE GLEN after it had contested Race 3, The Boag’s Draught Handicap – 1200 metres at Morphettville on Saturday, 2 February 2013 was found to contain the substances Flunixin and Ibuprofen.

Evidence was heard from the Trainer of COSTA IN THE GLEN, Mr. K. Bourke, Racing Analytical Services Limited Scientific Manager, P. Zahra, as well as TRSA Veterinary Surgeon, Dr. P. Horridge. Stewards also heard evidence from Mr. Bourke’s Stable Employee Ms. G. Williams.

After considering the evidence, the Stewards charged Mr. Bourke under ARR.178 in that as the Trainer of COSTA IN THE GLEN he authorised and was responsible for the presentation of COSTA IN THE GLEN in Race 3 at Morphettville on Saturday, 2 February 2013 following which a post-race urine sample, upon analysis, was found to contain substances prohibited under ARR.178B, namely Flunixin and Ibuprofen.
