Neilson) and was obliged to alter course to the inside of TEXAN WARNEY to improve. Shortly thereafter, approaching the 100 metres, ALBONETTI was again obliged to shift in to obtain clear running.

M. Neilson, the rider of DETOX, explained he was comfortable to settle back of mid-field early but was conscious of the pace in the event and approaching the 800 metres elected to shift out wider on the track in an attempt to maintain the mare's momentum. He added that whilst he considered the tempo was genuine, he was conscious of the weight carried by the mare and for that reason commenced his run inside the 600 metres but DETOX failed to finish the race off and was disappointing. He added the mare was inclined to lay out under pressure. DETOX was examined by the Club's Veterinary Surgeon who reported the mare to be lame in the near hind leg. Mr. J. J. Toeroek, the rider of MAHMENTUM, explained his instructions were to take up a forward position and after riding the gelding aggressively in the early stages to comply with his instructions, he was unable to do so and was obliged to settle back of mid-field due to the pace and composition of the field. Thereafter he was obliged to race wide without cover for some distance and when asked for an effort in the vicinity of the 600 metres, the gelding failed to respond to his riding and finished the race off in a disappointing manner. He added for that reason he did not persist with his riding over the final 200 metres as the gelding commenced to weaken and lose contact with the field.
